

P16750 POWER BANK

**PURE POWER IN
THE PALM OF
YOUR HAND**

P16750 Power Bank

High-capacity power banks don't always have to be big and bulky. The P16750, in particular, blends massive power storage with small physical dimensions. By striking the perfect balance between capacity and size, the P16750 is your best choice for power on the go.

Huge Capacity

With a maximum charge of 16,750mAh, the P16750 can charge a smartphone to 100% six times over, and a tablet computer 1.8 times. Say goodbye to low power alerts

Dual Outputs, No Waiting

The P16750 is equipped with two USB output ports with currents of up to 2.1A, which means you can charge both of your mobile devices at the same time.

Smaller without Sacrificing Performance

The P16750 shatters conventions by being smaller than other 16,750mAh power banks available on the market. This makes it more easily portable, without compromising performance.

Multiple Forms of Circuit Protection

Safe operations are guaranteed thanks to the device's protective measures against over-charge, over-discharge, over-heating, short-circuit, and over-voltage in input and output.

Features

- Big 16750mAh capacity
- Dual color with a flame isolated plastic panel
- Synchronous charge/discharge
- Dual USB ports with total 2.1A output
- Integrated LED flashlight
- Multiple circuit protection (OCP, OVP, OTP, SCP, ODP, OCP)

Specifications

- Capacity: 16750mAh
- Battery: Li-ion
- Color: Black/ White
- Dimension: 130.7 x 75.0 x 25.5mm / 5.1 x 2.9 x 1.0"
- Weight: 375g / 13.2oz
- Input: DC 5V / 2.0A
- Output 1 & 2: DC 5V / 2.1A max
- Warranty: 1 year
