13 in 1 USB C Triple Display Dock with stand

Key Selling Points:

1. **Ultra high resolution**

HDMI or DP port support up to 4K@60Hz high resolution if working separately, offering high-resolution display experience when you are working or playing games, etc.

2. **PD super fast charging**

Support PD 100W max fast charging, offering continuous power delivery for your host device while transferring files or streaming media, no need to worry about power outage anymore.

3. **High Speed Data Transfer:**

Equipped with 3×USB-A ports, support up to 5Gbps high speed data transfer, able to connect with various USB devices to bring you great conveniences when using laptops.

4. **Gigabite Ethernet**

RJ45 port support up to 1000Mbps, downwards compatible with 100Mbps /10Mbps, providing more stable network connection when working, playing games, watching videos or downloading files, etc.

5. **2 in 1 product with unique design**

2 in 1 product, not only a multi-ports USB hub with embedded cable below, but also a laptop stand.

6. **Triple Display USB-C hub**

The 13 in 1 USB C Triple Display Dock with stand equipped with multi HDMI, DP and VGA ports that can mirror or expand videos to external two or three monitors, unleash more possibilities of your laptop and improve the work efficiency
