

# HS-02B Headset

Classic stereo Headset

## Listen Better, Talk Better

The HS-02B is a new model in the Genius headset family for music and on-line talking. It features headphones and a microphone with on-line volume control. No matter if you use SKYPE or MSN Chat, net-phone, etc., this headset provides crystal clear quality and will not let you miss any sound. The stylish light blue color mixes great not only with your PC or notebook, but also with your portable audio device, like a MP3 player or CD player. Its on-line volume control is also attached for easier volume adjustment.

Listen to your favorite music or talk over the Internet with a friend. Bring fashion to your life with this classic stereo headset.
